

2024 FORD RANGER REQUIREMENTS

— PART REQUIRED —

LOAD BOX REINFORCEMENT BRACKETS

It is a requirement from Ford that any 2024 Next Gen Ranger produced ON or BEFORE 09/19/2024 with accessories extending above the bedrails, and weighing in excess of 88 lbs., be fitted with Load Box Reinforcement Brackets (aka J-Braces). These may be purchased through any authorized Ford Dealer and will need to be installed PRIOR to installation of a SmartCap to avoid negatively impacting your vehicle's Factory Warranty. Use Part Number: VN1WZ2627726A for most trim levels or Part Number: VN1WZ26277236B for Raptor models. These are not necessary for Rangers produced AFTER 09/19/2024. Please consult your Owner's Manual or selling dealer for information on your vehicle's production date.
